

Four Corners Shooting drill

Divide the players up into four groups. Put a group by each goal post and each corner of the goal box.

Line 1 will pass the ball across the goal to line 3. The player in line 3 will shoot. Then line 2 will pass the ball across the goal to player in line 4. Player in line 4 will shoot. Have the player rotate lines clockwise.

Make sure passes are controlled and on the ground so the shooter can make a nice shot
