

## Last Man Dribbling

Make a large square with cones. All but one player have a ball.

The Player without the ball tries to steal a ball from another player while keeping it inside the square.

Any ball that leaves the square is a dead ball and cannot be brought back in.

Once a player's ball is stolen or leaves the square, they should try to take a ball from someone else inside the square.

Last player with full possession of the ball win.
