

Steal the Bacon

Everybody loves this game!

Make a large square with cones. Use the entire practice space.

Divide the girls into two groups. Number the girls 1-4, in each group.

Have each group stand across from each other on the outside of the square. The coach will roll the ball down the middle and call out a number. The two girls with that number will run out for the ball.

For a team to score a point the player must bring the ball back to the side their group is on.

You can also call out more than one number. That way the girls have to work together.

First to 10 Wins.

Variation:

- Have the girls try to score in the practice goal.
- The older girls must bring the ball back to their side and stop it on the line. Point does not count if ball is still moving.
