

Treasure Hunt

Place cones all over the practice area. The coach yells “go” and the players dribble around the grid keeping the ball close. The object of the game is to collect as many cones as possible, while dribbling around the grid.

Once all cones have been picked up, the player with the most cones is the winner.

(you may want to bring more cones from home to have more treasure)

Variation:

- Have the players do 5 toe tops before picking up the cone.
- Role the ball over the top of the cone before picking it up.
- Dibble around the cone, then pick it up.
